Document type: Information summary for distribution with official announcements; **not** a subscription, yield promise, or securities offering. **On-chain data and formal notices prevail.**

Project Overview

Dimension	Detail
Name	Rune Abyss (符文深渊)
Chain	BNB Smart Chain (Chain ID 56)
Type	Web3 strategy / progression · dungeon expeditions · material economy · NFT synthesis
Core token	\$ADVENT (utility: summoning & synthesis burns; ~1B supply design, verify on-chain)
Stablecoin use	USDT : stamina purchases, internal materials market
Asset types	Character NFTs ; ERC1155 materials (AE / BF / MR / ES)

Core Loop (30 Seconds)

Connect wallet → Summon character NFTs → Form a team of three

- Spend stamina on dungeons (on-chain settlement) → Earn materials
- (Optional) Rebalance via USDT internal market
- Burn materials + \$ADVENT to synthesize higher rarity
- Repeat; referrals may share stamina and market-fee splits (rules on-chain)

Economy Highlights (Factual Summary)

- Materials:** primarily from dungeons, secondary from trading; **protocol does not infinitely mint materials.**
- Summoning:** base **50,000 \$ADVENT / character** (order of magnitude); **~+10% every ~1,000 global mints**; batch **1–10**; **~6,000** global token-summon cap (synthesis excluded).
- Stamina:** **1** per run; common display **~0.5 USDT / point**; newcomers often **5** trial stamina (per deployment).
- Dungeons:** **6** tiers, power gates **45 → 550**; success full materials, failure often **~¼** materials (implementation prevails).
- Synthesis:** four material types + \$ADVENT by rarity, **100% success**, burn to sink.
- Market:** USDT orders, partial fills; **~5%** fee (split includes referrals; unbound portion per project config).

Technology & Trust

- **Commit–Reveal** on critical summon/synthesis paths for verifiable randomness.
- **Auditable contracts**: core logic on-chain; **addresses and ABIs—follow official website disclosures**.
- **Frontend**: Next.js stack; **use only the official deployment** at <https://runeas.xyz/>.

Partners We Seek

- Wallet & distribution · KOLs & vertical media · security audits & index listings · compliant payments & OTC (subject to local rules)
